The church has brought the house across the road.

The orange bricked house across the road from the church is now church property. His Grace Bishop Daniel visited our church and discussed this proposal and the final decision was made by the congregation.

The cost of the house was approx. $650, 000.
The total land is approximately 1/4 of the existing church land.

May God Bless this new project.
Please remember this project in your prayers.
